2. Setup calendar - Project end date calendar to show the dates after the start date **Or only use one calendar like hotel booking**

3. Uploading the CSV files are not happening automatically - we need to refresh every time (if possible) **It gets stuck on Please wait**

4. Duplicate upload when replacing the wrong uploads

5. Individual line item costs are fine with roundup but the total price is calculating the normal value so the total is not correct every time. **Very important.....**
